PROFILE

UX/UI designer and front-end developer in Vilnius. I design the flow, then build it in code. At Netzet, that took funnel launches from about 3 weeks to 1–2 days.

EXPERIENCE

UX/UI Designer and front-end builder at **Netzet**

Mar 2026 – Present

- Built 30+ quiz funnels, landing pages and upsell pages for Netzet's apps.
- Built the front end of the VictoryScale web app with Claude Code, working with product owners and a backend developer.
- Replaced the Figma handoff with building funnels directly in code: launch time went from about 3 weeks to 1–2 days.
- Tools: Claude Code, Cursor, Next.js, GitLab, Figma.

Web Developer & UX/UI Designer at **Freelance (justas.pro)**

Apr 2021 – Present

- Designed and built websites, landing pages and redesigns for clients, working directly with stakeholders.
- WordPress with WooCommerce, Elementor and LearnDash, plus custom HTML, CSS and JavaScript.
- Built finovus.lt, and developed mostai.lt with a searchable course catalogue, filters and automation.

UX/UI Design lecturer at **FastTrack & CodeAcademy**

Sep 2024 – Apr 2026

- Taught UX/UI design to bootcamp students.

UX/UI Designer at **Bright Projects**

Mar 2022 – Feb 2024

IT company in EdTech and gaming.

- Design systems, and landing page, e-commerce and SaaS design.
- Graphic design and copywriting.
- Worked with stakeholders and developers in an Agile team.

Senior Technical Support at **Revel Systems**

May 2019 – Oct 2021

Point-of-sale hardware and software company.

- Troubleshoot hardware, software and network problems.
- Worked in Jira, Salesforce and Zendesk, and escalated cases across departments.

Software Engineer intern at **Swedbank**

Feb 2019 – Apr 2019

- HTML, CSS, JavaScript, Bootstrap, basic Java and Angular 7, Git, Agile.
